We need to decrease your gas and electricity fixed monthly Direct Debit

Hello Mrs Honeyman & Mr Honeyman

We've reviewed your fixed monthly Direct Debit payment and it's changing from £119.00 to £88.00.

We'll start taking this from 1 July 2016.

We've also refunded your credit balance of £218.86, and you'll receive this within the next 10 days.

How we worked out your new fixed monthly Direct Debit

Your account

Your next few monthly payments

VRC 700 Wired weather compensating programmable room thermostat

The VRC 700 system control allows you to take control of your Vaillant heating and hot water system. Designed to work harmoniously with all current Vaillant equipment, the VRC 700 effortlessly ensures your appliances are working to their peak performance, always maintaining optimum efficiency.

- The VRC 700 control has been designed with ease of use in mind. Using a familiar menu structure it makes controlling
- Automatically communicates with all Vaillant appliances and our hybrid management system will automatically choose the most efficient and cost effective appliance, to deliver the most cost effective and energy efficient solution.
- Compatible with Vaillant Combination, System & Open Vent boilers.
- Three Heating and three hot water time periods can be set for each week, day or over a 24 hour period.
- Blue backlit display, using proven technology offers outstanding contrast, resulting in clear information, whilst providing a low energy consumption
- Can control either a S or a Y plan system when used with our VR 66 wiring centre
- VR 91 additional heating zone controls are designed to mirror the functionality of the VRC 700. This is to provide our customers with a familiar user experience anywhere in their property.
- Your vaillant heating system easily whilst giving you quick access to a whole host of functions for convenience.
- The VRC 700 can accept on/off signals from 3rd party under floor heating systems. This provides total system flexibility when designing your customers complete heating system.
- Your vaillant heating system easily whilst giving you quick access to a whole host of functions for convenience.

* Class VIII possible when installed with 3 or more zones
